

Standard Kiosk Keyboard and Mouse

Ideal keyboard option for
tradeshows, consumer events,
and most indoor applications

Product Overview

The **NOVA Kiosk** comes standard with the ACK-540 Mini-Touch Keyboard with an 88-key layout with an embedded numeric keypad, 12 dedicated function keys and built-in touchpad. The keyboard's touchpad offers precise cursor control and left and right mouse buttons. The keyboard's integrated touchpad is conveniently located in a central position on the built-in wrist rest for additional comfort and minimal wrist strain. We combine an external mouse with this keyboard for maximum interactivity.
